Single Public Insurer, Private Delivery

- Free choice of providers
- Highly competitive providers
- Easy access
- Efficient services
- Acceptable, may not be good enough, quality of care

Preventive services /Quality of care

- More investment shall be made in preventive health services
 - To strengthen cancer screening services
- Organizing the integrated health care system
- Emphasizing patient-oriented quality-based health care
- Pay for performance/ pay for quality

Long-term Care

- 10-year plan for creating a long-term care system
 - Building a sound and complete long-term care system
 - Combining private resources to provide long-term care services
 - Established a family-support caregiver system
- Initiate long-term care insurance to meet the aging trend of population before 2016?

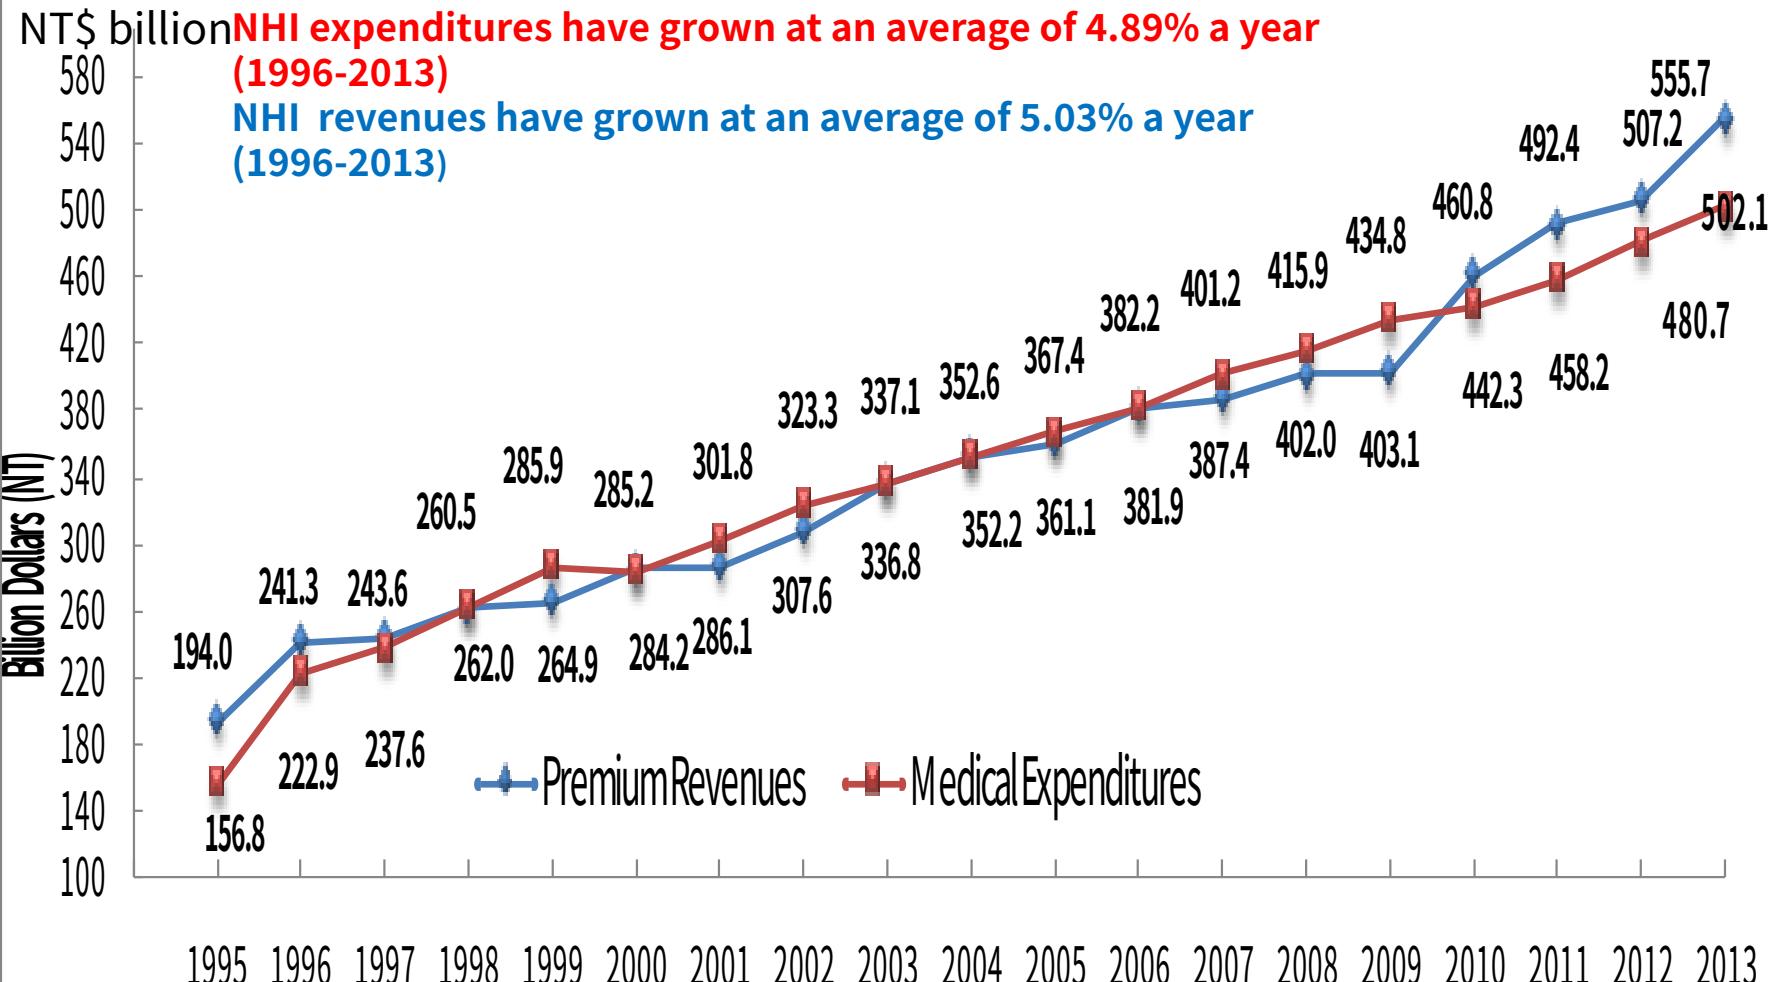

Financial Stability

- NHI expenditure growth rate(5.5%) > NHI revenue growth rate(4.4%)
- Politically difficult to raise payroll premium
- Payroll-based premium always fall short of economic growth
- Raise from **4.25%** in 1995 up to **4.97%** in 2013, and **2% non-payroll income**

National Health Data Center

Virtual Lifetime Electronic Record

Obama directed the Department of Defense and the Department of Veterans Affairs to create the Virtual Lifetime Electronic Record:

“... will ultimately contain administrative and medical information from the day an individual enters military service throughout their military career and after they leave the military.”

-President Barack Obama

e-Health Environment

- Establishing nationwide EMR and image exchange in 2015
- Completed 507 hospitals and over 20,000 Clinics
- Developing automatic system searches for high medical services utilization records

NHI PharmaCloud System

- Record patients' drug utilization data of the last 3 months
- Making available real-time searches for hospitals and physicians to avoid repeated drug dispensing and guarantee drug safety and quality.

NHI
PharmaCloud

My Health Bank

Personal medical data accessibility

- Self-managing NHI claim records
- Alerting hospital to claim accurate data
- Facilitating discussion between doctors and patients

Personal Privacy

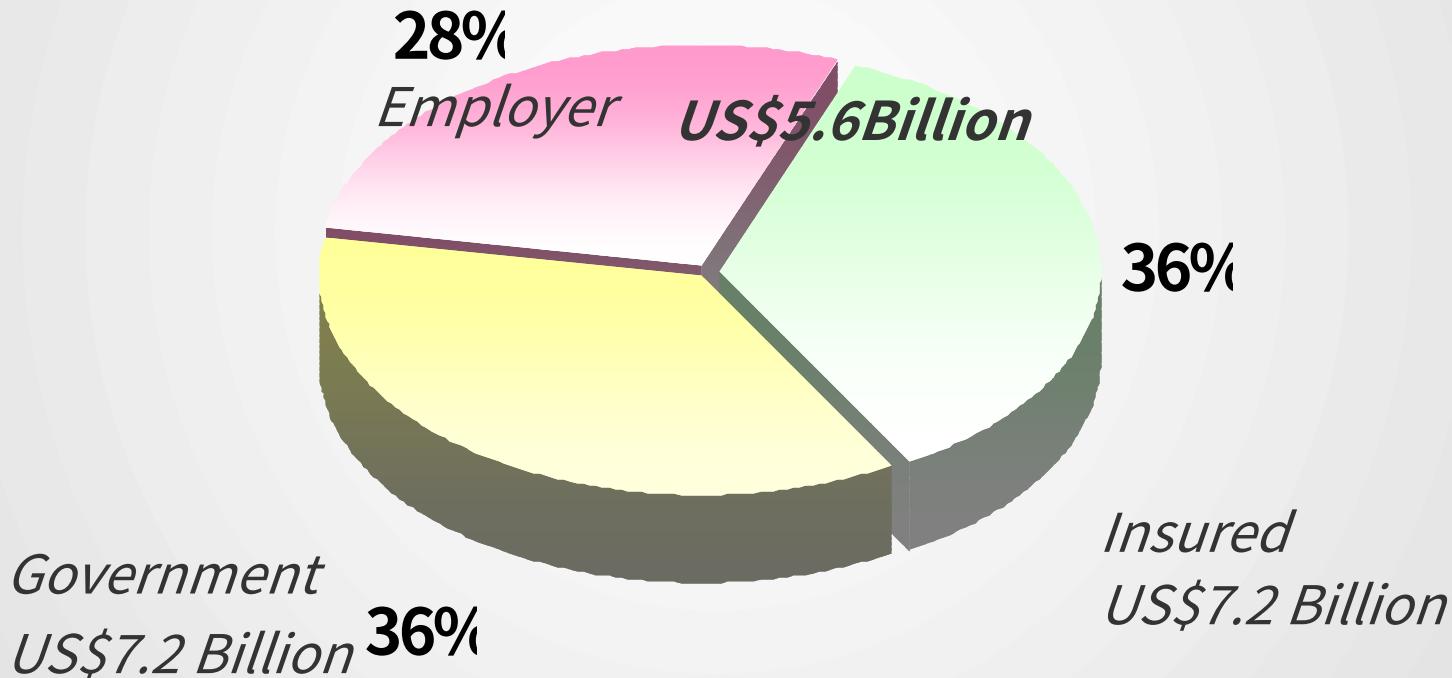

- Certificate identity
- Security for downloading files
